In accordance with the provisions of controlling law, even notwithstanding the fact that, an exemption noted above may apply, the City hereby publishes the following information:

1. Summary of the proposed ordinance (must include statement of the public purpose, such as serving the public health, safety, morals, and welfare):

This ordinance increases the system development charges for new connections. The new connections have resulted in the City having to expand and upgrade the wastewater treatment facility.

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in the City, including the following, if any:

- (a) An estimate of direct compliance costs that businesses may reasonably incur;
- (b) Any new charge or fee imposed by the proposed ordinance, or for which businesses will be financially responsible; and
- (c) An estimate of the City's regulatory costs, including estimated revenues from any new charges or fees to cover such costs.

The charges are not new, but have been re-evaluated as a result of a rate study. The fees will be applied to new business. They will also be applied to existing City businesses that increase their usage through expansion or change of use. At that time, they will pay the difference between the old use and the new use.

3. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:

The number of businesses affected depends entirely on new development.
